

HODs Desk

Dr. Vijay R. Rathod
Head of Department

It gives me immense pleasure in putting forth the aims, objectives, environment, infrastructure, facilities, faculty, and campus of our institute. Success comes to those, who work hard. The institute has a road map to establish itself as a world class technological institute. Away from the cities hustle and bustle. This well planned, beautifully developed and neatly maintained educational campus provides every facility to the students and the atmosphere to study and build his/her career. Well qualified & experienced faculty members impart the knowledge to their students whole-heartedly and devotedly and are always ready to help the students.

The concept of Guardian Teacher is implemented in this institute. Under this scheme, for every 20 students, a teacher is assigned to help them in academic as well as personal problems and our mentoring program motivates them to excel in their career. We are in constant touch with the parents and keep informing them of the performance of their wards through correspondence and meetings. Special attention and assistance is provided for improving the practical knowledge in the subjects. Along with studies, students have the facility to develop themselves in allied interests like indoor and outdoor sports, reading and cultural activities. While pursuing academic excellence we also take care of personality development because we believe that today's engineering student must be groomed into tomorrow's professional technocrat to enable him to become a part of the global workforce. We also have a training and placement office where the efforts of students are encashed by getting a very good job offer in a reputed organization even before the final results. Notably excellent results in every examination, placements and students migrating from nearby towns, cities and states of India is an acknowledgement of our efforts and serves as an encouragement for further development. I am confident that with the wholehearted support and co-operation of the teaching as well as non-teaching staff and students the dream will soon be realized. Wishing you all the best for every success and bright future.

Dr Vijay R Rathod

PhD (IIT Roorkee)

Head ,Dept of Electronics & Telecommunication
